SECTION 2. *Functions and Responsibilities.* The Board shall perform the following functions and responsibilities:

- 2.1 Provide measures and safeguards against pollution in the terrestrial and/or aquatic and marine areas of the province for the preservation of healthy ecosystems.
- 2.2 Formulate and regularly update not only the Solid Waste Management plan based on RA 9003 but also plans for the management of other types of wastes such as liquid or effluent to include sewage and bilge water, human wastes, industrial including mining/quarry wastes, agricultural field wastes, hazardous wastes and debris related to disasters and calamities. Since different types of waste require different approach in handling and strategies of managing, the management plan for each type of waste may be formulated as stand-alone by type and may be consolidated as one integrated waste management plan of the province which may be used as the framework for local integrated waste management plans.
- 2.3 Coordinate the efforts of the component LGUs in the implementation of the Provincial Solid Waste Management Plan/integrated waste management plan as well as in their respective local plans of dealing with the generated wastes within their jurisdictions.
- 2.4 Convene joint meetings of the provincial, city, and municipal solid/integrated waste management boards for purposes of integrating, synchronizing, monitoring, and evaluating the development and implementation of the local waste management plans.
- 2.5 Oversee the implementation of the Provincial Solid/Integrated Waste Management Plan.
- 2.6 Review or update every two (2) years or as the need arises, the Provincial Solid Waste Management Plan or Integrated Waste Management Plan or Management Plans by type of waste for purposes of ensuring its sustainability, viability, effectiveness, and

relevance in relation to local, regional, national and international development in the field of waste management.

- 2.7 Recommend measures to generate resources, funds/materials/facilities/utilities/equipment/implement-sourcing, and implementation of projects and activities as specified in the duly approved waste management plan(s).
- 2.8 Identify areas within the province that have common solid waste/effluent management problems as a basis for planning local waste management services.
- 2.9 Allow for the clustering of LGUs for the solution of common solid/effluent waste management problems.
- 2.10 Develop an appropriate incentive scheme as an integral component of the Provincial Solid/Integrated Waste Management Plan.
- 2.11 Promote and encourage integrated waste management for a comprehensive approach in dealing with other forms and sources of waste in the province.
- 2.12 Encourage and promote broad participation of local communities and synergistic support from other agencies in the appropriate solid/integrated waste management.
- 2.13 Provide assistance and support, when necessary, to component LGUs in the implementation of their respective solid/integrated waste management plans as well as in the capability development/enhancement of the Barangay Ecological Solid Waste Management Committee (BESWMC) activated thru DILG MC No. 2018-112; and
- 2.14 Perform such other functions as may be deemed necessary for the effective, efficient, synergistic, participatory, and integrated as well as ecological waste management in the province.

SECTION 3. Meetings. The Board shall regularly meet at least once every quarter of a year, starting at 9:00 o'clock in the morning. However, when deemed necessary, special meeting may be called for by the Chairman.

SECTION 4. Committees. To deal with matters requiring the immediate attention of the PIWMB in between the schedule of its regular meeting, an Executive Committee of the Board is hereby created composed of the following:

Chairman	- Provincial Governor
Vice Chairman	- Head, ENRO-DO/POEM
Members	- President, League of Municipalities
	- President, Liga ng mga Barangay, Provincial Federation
	- PENRO, DENR
